ATMIYA MANUFACTURING

ABOUT US

Established in 2012, Atmiya Manufacturing is a progressive Manufacturer and Supplier firm of Paper Pate, Thali & Dona Making Machine which demand increasingly high in India. We are manufacturer of Hydraulic & Mechanism both type of machine. We take pride on our solution based process, which equips us to produce high performing machines that are easy to operate, energy efficient, cost effective and require minimum maintenance. Our customer centric approach lets us take time to consider about the complex market needs that helped us to gain trust and confidence of a wide number of clients across the country.

QUALITY ASSURANCE

To create reliable machinery, we take innovative approaches to identify how the finished product will add greater value to our customers' business. Our quality policy runs parallel to the need to manage costs effectively, thus we procure high grade raw materials from authorized vendors who are at the forefront of the industry. Our experts are well-versed with the intricacies of the quality norms and ensure that our developed machinery conforms to the standards and is reliable to be dispatched.

Whatever machines our company makes, all the machines follow ISO standards because our company is ISO & CE certified company.
